## Myth Busted: Sweating More Doesn't Necessarily Mean You Burned More Calories

Many people wrongly believe that how much you sweat indicates how effective your workout was. How much you sweat during a workout is due to a variety of factors such as weight, gender, age, genetics, temperature and even fitness level.

For example, men tend to sweat more than women, younger people tend to sweat more than older people and fit people tend to sweat more than those who are less fit.

So remember, don't use sweat as an indicator for how intense your workout was. Instead, track your heart rate, level of muscle soreness and amount of progress seen to evaluate whether or not your workouts are effective.

## WHO Calls for a Ban on Artificially Produced Trans Fat

The World Health Organization (WHO) says that the artificially produced trans fats found in junk and fried foods contribute to more than 500,000 preventable deaths annually. That's why the WHO has released [REPLACE](#), a guide for governments to eliminate industrially produced trans fat in their countries. Their goal is to remove all artificially produced trans fats from the global food supply by 2023.

### What exactly is trans fat?

Trans fat is vegetable fat that has been chemically altered by a process called hydrogenation. This process turns healthy fat into a solid, unhealthy fat that is worse for you than saturated fat. Trans fats boost low-density lipoprotein (LDL or bad cholesterol) levels and can increase your risk of heart disease by 21 per cent.

### What can you do now to avoid eating and drinking trans fats?

The WHO's campaign was launched mid-May 2018 and is in its early stages, which means it might take some time to see changes in Canada. In the meantime, you can read nutrition labels and look at the amount of saturated fat and trans fat per serving.

It's also important to check the ingredient list, which is different from the nutritional label. Ingredient information is listed from greatest to smallest amounts, so if partially hydrogenated oils or high fructose corn syrup are listed as the first few ingredients, choose another product.

## Ultimate Mixed Bean Salad

- 227 g (8 oz) green beans, trimmed
- 227 g (8 oz) yellow beans, trimmed
- 250 mL (1 cup) shelled soybeans (edamame)
- 1 can (540 mL/19 oz) sodium-reduced chickpeas, drained and rinsed
- 2 stalks celery, thinly sliced
- 2 green onions, sliced
- 1 large red bell pepper, chopped
- 60 mL (¼ cup) apple cider vinegar
- 15 mL (1 tbsp) Dijon mustard
- 15 mL (1 tbsp) canola oil
- 2 mL (½ tsp) fresh ground pepper
- 60 mL (¼ cup) each chopped fresh basil and parsley or mint

### PREPARATIONS

1. Cook green and yellow beans and soybeans for 3 minutes in a saucepan of boiling water. Drain well and rinse under cold water to chill. Cut beans into 5-cm (2-inch) pieces. Set bean mixture aside.
2. Combine chickpeas, celery, green onions and red pepper in a large bowl. Add bean mixture to bowl.
3. Whisk vinegar, mustard, oil and pepper together in a small bowl, Pour over bean mixture and toss to coat. Add basil and parsley and toss again.

Makes: 8 servings

## Snack Smart: Save Money, Time and Calories

It's completely normal to snack throughout the workday. While it can be tempting to opt for the fast, easy (but unhealthy) option, taking a minute to snack smart can save you time, money and calories. Keep the following three tips in mind to help you snack smart at the office.

1. **Take a break.** When you reach for your snack at work, don't eat it while working. Instead, take a quick break to eat your snack uninterrupted to avoid overeating.
2. **Meal prep your snacks.** One of the best ways to avoid impulsively purchasing unhealthy snacks from the vending machine is to pre-portion your healthy snacks at the beginning of the week and bring them with you to work.
3. **Think about macronutrients.** Try to combine macronutrients (protein, fat and carbohydrates) at each snacking session. Doing so will help you feel satisfied and full until it's time for your next meal.

## Snacks with 100 Calories or Less

**String cheese**—Opt for an individually wrapped piece of string cheese to get your fill of protein and calcium at less than 100 calories per serving.

**Popcorn**—Available in 100-calorie individual servings, you can get a good amount of whole grains from this snack.

**Nuts**—Unsalted nuts and seeds have many beneficial nutrients to keep you feeling full. Check portion sizes to keep your calories under 100.
